

## Like Father, Like Child

Father's Day celebrates the special bond between fathers and their families. Every dad is a celebrity in his child's eyes, of course, but in some families fame and fatherhood go hand in hand. ## An Absent-Minded Professor Story

A Columbia University professor of philosophy named Irwin Edman was both brilliant and spectacularly absent-minded. One story tells of the time he stopped a student on Riverside Drive. "Pardon me," he asked, "but am I walking north or south?"

"North, sir," the student replied.

"Ah!" Edman smiled. "Then I've eaten my lunch."

## Stay Awake On The Road

Fatigue can be a killer, especially when you're driving on the open highway for long periods of time. Here are a few tips for staying safe at the wheel:

- ❖ **Get enough rest.** Try not to start a trip late in the day. Long-distance driving is tough enough in the daytime. Be ready and awake.
- ❖ **If possible, don't drive alone.** Passengers can take turns driving, or at least help you stay awake if you need stimulation.
- ❖ **Adjust your car's environment.** Use your controls to keep you awake and alert. Keep the temperature cool, with open windows or air conditioning in the summer and frugal amounts of heat in the winter.
- ❖ **Watch your posture.** Drive with your head up and your shoulders back. Tuck your buttocks against the seat back. Legs should not be fully extended, but flexed at about a 45-degree angle.
- ❖ **Take frequent breaks.** Stretching is good for staying flexible and awake.

## ***A Journey To The Center Of The Earth Would Be Very Hot***

The interior of the Earth is hot, very hot. As reported on the Fox News/Science website, scientists using synthetic materials to simulate mantle rock have determined that temperatures in the Earth's mantle, which sits beneath our crust (lying beneath the oceans), reach 2,570 degrees Fahrenheit, almost 100 degrees hotter than was previously believed.

This new finding will help researchers model our planet's geodynamic processes and plate tectonics more accurately, possibly explaining how tectonic plates move on top of the upper layer of the mantle.

## ***Try Ginger For Its Health Benefits***

Looking to get over a cold a little more quickly, or ease muscle soreness? A little ginger may help. Check out this list of ginger's healthy benefits:

- **The common cold.** Some research suggests that ginger helps your body sweat out a cold, as well as producing a germ-fighting agent called dermicidin, which can protect you from bacteria and fungi.
- **Muscle aches.** One study by the American Pain Society found that taking two grams of ginger for 11 days can significantly reduce aches and muscle soreness caused by exercise. That's because ginger contains anti-inflammatory compounds known as gingerols, which prevent the transmission of pain from inflammation. Try adding a few slices of ginger every time you drink a glass of water.
- **Indigestion.** Ginger can help speed up the digestive process, allowing you to empty your stomach faster. It also helps eliminate excess gas from the intestinal tract.

## ***Save Money On Groceries With This Savvy Advice***

We all want to save money on groceries, but we have to eat. Still, you can reduce your grocery bill with a few simple tips. Try these:

- \* **Buy fruits and vegetables in season.** Learn when your favorite fruits and vegetables are in season. You can usually get them for less money during these times.
- \* **Expand your egg choices.** Eggs don't have to be limited to breakfast. Check out dinner options like quiche and other egg-based meals.
- \* **Use more lentils and beans.** These are packed with protein and can make your meat go further. They're cheap, filling, and flavor-neutral, so they can go with almost anything.
- \* **Be careful buying in bulk.** You may get a better price, but the savings are worthless if you buy more than you can eat and end up throwing food away. Check expiration dates closely to be sure you'll use everything up.

## ***What Goes Down Must Come Up***

Two businesswomen decided to start a bungee-jumping business and thought the best way to publicize their enterprise would be for one of them to plunge into an unsuspecting group of people and shoot back up again. They found a cliff overlooking a residential district and located a spot right over a house where a backyard party was being held.

One of the women decided to be the jumper, and the other stayed on the cliff. The jumper donned the harness, secured the elastic cord, and jumped off the cliff. The tender soon heard shouts of laughter from the crowd below as the cord went up and down. "Success," she thought.

But when the jumper came back to the top, she was covered with bruises and limping. "What happened to you? Was the cord too long?"

"No," her partner gasped. "The cord was fine. But I knew I was in trouble when I got to the bottom of the jump and everyone yelled, 'Piñata!'"

"Laughter is timeless. Imagination has no age. And dreams are forever."

## Libraries Still Vital, Parents Say

You can find almost everything you want to know on the Internet, but most Americans still see a lot of value in their neighborhood libraries. A Pew Research Center survey of more than 2,000 parents found 94% agreement with the sentiment "Libraries are important to our children" with 84% saying libraries help to support a love of reading books and 81% believing libraries provide information and other resources that children can't find at home. 71% support libraries as a safe place for kids. **AND IT'S FREE!!!** Take The Kids This Summer! ## Cynical Slogans For One Of THOSE Days

Motivational posters are common in the workplace, but some days you want something with a little more of an edge. Try these when you're in a cynical mood:

- ◆ If at first you don't succeed, destroy all evidence that you tried.
- ◆ A conclusion is the place where you got tired of thinking.
- ◆ Experience is something you don't get until just after you need it.
- ◆ For every action, there is an equal and opposite criticism.
- ◆ No one is paying attention until you make a mistake.
- ◆ Success always occurs in private and failure in full view.
- ◆ To some people two wrongs are only the beginning.
- ◆ Monday is an awful way to spend 1/7 of your life.
- ◆ The sooner you fall behind, the more time you'll have to catch up.

## A Song of Joy!

A mechanic who worked out of his garage owned a dog who loved to eat grass: The dog, Mace, would eat all the grass in the yard if he got the chance, so the mechanic kept him inside as much as possible,

One Spring, the mechanic had so many projects he didn't have time to cut the grass for a couple weeks. It wasn't a problem until he realized he lost his wrench. After searching his workshop, he decided it must have dropped from his toolbox while walking through the yard. He didn't have time to search the high grass so he decided to let Mace out in the yard. He spent the afternoon in his garage while his dog happily chewed down on all the grass in sight. When quitting time came around, he walked out of the garage and saw the wrench lying in the now short grass.

Relieved, the mechanic looked toward the heavens and sang; "A grazing Mace, how sweet the hound, that saved a wrench for me...."
